Eagle Creek School Provides Fire Practise Fuel

Please click on photos for larger versions

On Saturday May 31, Eagle Creek School was destroyed by fire. Abandoned for many years and currently owned by the Canim Lake Community Club, the decision was made to clean up the property to sell it. This provided an opportunity for a great fire practise and 3 area Fire Departments participated: Hawkins Lake, Canim Lake, and Forest Grove.

Spectators watched as the firefighters went through various training exercises, followed by the fiery destruction of the building.

Eagle Creek School was an important part of the community for years. For a glimpse of its history, please [click here](#).

Thanks to Bev McWilliams for the photos!
